Quick Guide Progress Monitoring

What is progress monitoring?

Individual and whole class/group reports enable teachers to quickly identify how students are working, whether they require intervention or extension, as well as what topic areas require special attention in their classroom. Teachers use these reports to monitor the progress of their students in a specific learning area, such as literacy or numeracy.

Progress reports provide teachers with detailed breakdowns of how each student is progressing in the classroom. With the information provided by the reports, teachers can determine whether to provide extra support or extension, and whether the interventions have been successful.

How LP does it

LiteracyPlanet's Reporting Dashboard enables teachers to track student progress along each strand of literacy. At-a-glance, the teacher can see which concepts the student has mastered, which ones they are still working on and which ones they are yet to complete.

LiteracyPlanet's Reporting Dashboard helps teachers determine what literacy areas they need to focus on in their teaching, as well as whether the learning level of each student requires adjustment.
